Mototrbo™ XPR 6580

More than just push-to-talk radio.

The MOTOTRBO radio integrates voice and data into one device. Text messaging allows users to share information when voice communication is not practical. Users can communicate between radios, radios and dispatch systems, and radios to email-capable devices.

Radio Controls

Accessing the Programmed Functions

You can access various radio functions through one of the following ways:

- A short or long press of the relevant programmable buttons.

OR

- Use the Menu Navigation Buttons as follows:

- To access the menu, press the button. Press the appropriate **Menu Scroll** button (or) to access the menu functions.
- To select a function or enter a sub-menu, press the button.
- To go back one menu level, or to return to the previous screen, press the button. Long press the button to return to the Home screen.

NOTE: Your radio automatically exits the menu after a period of inactivity and returns to your Home screen.

Basic Radio Operations

- Rotate the **On/Off/Volume** control knob clockwise to turn the radio on or off or adjust the volume.
- Press and hold the **Push-to-Talk (PTT)** button on the side of the radio to talk. Release to listen.
- To initiate a scan, press the blue button on the side of the radio to Scan or select **SCAN** in the menu.

Contacts for your group have been preprogrammed into your radio. Each entry corresponds to an alias or ID that you use to initiate a call.

Making Radio Calls

Your Motobro radio can make and receive private or system-wide calls. Select a **Site, Zone** and **Radio Channel** or **Subscriber ID** or **Group ID**.

Group Call/All Call

To receive and respond to a Group Call /All Call your radio must be configured as part of that group.

- Turn the Channel Selector Knob to select the channel with the active group alias or ID. The LED indicator *blinks* green.
- Hold the radio 1 to 2 inches from your mouth.
- Press the **PTT** button to make the call. The LED indicator shows *solid* green.
- Wait for the tone to finish (if enabled) and speak clearly into the microphone.
- Release the **PTT** button to listen.
- When the target radio responds, the LED blinks green.

Private Call

A Private Call is from an individual radio to another individual radio. Your radio must be programmed to initiate a Private Call.

- Use the Call Alert features to contact an individual radio.
- Turn the Channel Selector Knob to select the channel with the active subscriber alias or ID.
- Hold the radio 1 to 2 inches from your mouth.
- Press the **PTT** button to make or respond to the call. The LED indicator shows solid green.
- Wait for the tone to finish (if enabled) and speak clearly into the microphone.
- Release the **PTT** button to listen. When the target radio responds, the LED blinks green.
