Recents
Open the Recents tab to view all your Placed, Missed and Received calls. Use the tabs at the top of the Recents window to view All calls, or filter only your Missed calls.

Make a Call
To initiate a phone call, do one of the following:
1. In the Contacts menu, tap the name of a contact in your contact list, then tap the phone icon and the number for that contact you wish to dial.
2. Go to the Keypad menu and tap the Contacts icon to open a list of your device and directory contacts. Tap the name of the contact then tap the Call button.
3. Go to the Keypad menu and enter a phone number in the Search and Dial bar, then tap Call.

Receive a Call
When you receive a call, a window will pop up with the caller’s information.
Select Answer to accept the call, or Decline to send the call directly into your voicemail.

Mid-Call Features
- Tap the active call to display the mid-call features.
- You can mute the call, open the keypad or end the call.
- Tap the ellipses for more in-call options, like Hold, Transfer, Conference, Move to Mobile, Park and Show call statistics.

Contacts
Jabber will prompt you to allow access to your local contact list. Select Allow or Deny as appropriate. To add a contact to your contact list you must first allow Jabber access to your local contacts.
1. Tap the icon at the lower right corner of your Contacts tab and enter the name or email address of the contact in the Search Bar. The predictive search functionality will present you with possible matches as you type.
2. When you locate the correct contact, tap on their name.
3. Tap Done.

Meetings
Calendar integration is not available on mobile devices.

Voicemail
Use the Voicemail tab to manage your voicemail messages. From here you may Play, Pause, or Restart a message. To delete a voice message, tap the message and select Delete.
